

CITY OF BUTLER, INDIANA

American's with Disabilities Act Transition Plan for Public Rights-of-Way & Public Facilities

Chapter 1 -- Summary & Purpose

In 1990, the Federal Government enacted the Americans with Disabilities Act ("ADA"). The City of Butler ("City") recognizes its legal obligation to comply with Title II of the ADA and hereby establishes a transition plan ("Plan") to ensure compliance to the ADA.

Title II of the ADA requires that each of the City's services, programs and activities, when viewed in their entirety, be readily accessible and usable by individuals with disabilities.

A disability, with respect to an individual, is defined as:

- A physical or mental impairment that substantially limits one or more of the major life activities of such individual.
- A record of such an impairment.
- Being regarded as having such an impairment.

The purpose of this Plan is to ensure that the citizens of Butler are provided full access to the City's programs, services and activities in a timely manner.

This Plan identifies existing barriers, establishes a timetable for removing these barriers and a means to address complaints of discrimination. It also provides for public input to assess, address and meet access needs, and sets periodic reviews of the Plan to monitor progress and compliance.

Butler elected officials and staff believe the ability to accommodate disabled persons is essential to good customer service, and to the quality of life that Butler's citizens seek.
